South Dakota High School Graduation Requirements

Approved by the South Dakota Board of Education Standards in July 2018

What Are the Graduation Requirements?

*A state-approved advanced computer science course may be substituted for one unit of a science elective, but may not replace Biology. A list of approved courses is available at <http://doe.sd.gov/gradrequirements>.

Students are required to meet the above High School Diploma requirements, also known as the 'base diploma'. Students may earn advanced endorsements with their high school diploma. A student's personal learning plan must document a minimum of 22 credits that include the above requirements.

** Advanced Endorsements Available
