

What is SSI?

SSI is short for Supplemental Security Income. SSI is a program under the Social Security Administration (SSA) that pays monthly benefits to people who are age 65 or older, are blind or have a disability and who have limited resources and income.

Often times, children (under 18 years of age) applying for SSI do not meet the financial and resource limitation allowance due to required reporting of all household income. However, when a child becomes an adult at age 18, the family's income and resources will no longer be considered when determining a child's financial SSI eligibility. Students should make application for SSI in the month after they turn 18. The individual applying must be present at the meeting, along with the parents to assist with answering questions.

If you plan to have your child apply for SSA disability benefits, you need to call SSA to schedule an appointment or apply online at www.ssa.gov. For phone numbers of regional offices, go to www.ssa.gov, click on "Find a Social Security Office" on the right hand side and then enter your zip code.

NOTE: If your child with a disability is receiving SSI benefits prior to age 18, they **must reapply** with SSA for SSI benefits as an adult. For this application, SSA will use somewhat different disability criteria than were used to evaluate their disability as a child. The adult definition of disability for SSI eligibility states: "An individual age 18 and older is 'disabled' if he or she has a medically determinable physical or mental impairment, which results in the inability to do any substantial gainful activity, and can be expected to result in death; or has lasted or can be expected to last for a continuous period of not less than 12 months.

SSI is to be used to pay the costs of food, clothing and shelter for the recipient. If your child is living with you and is approved for SSI after they turn 18, the SSI check will be reduced by one-third unless he/she is paying living expenses. The amount of living expenses does need to be a fair amount, one that a parent would charge for anyone who may rent a room in the household. A rental agreement between the parent and child should be developed and sent to SSA to address this reduction.

Opportunities for Your Child in the Adult Services System

Family Support 360 is a program for people with intellectual or developmental disabilities. These services will make it easier for people to live and work in the community on their own. Contact the Division of Developmental Disabilities at 1-833-663-9673, Option 2.

Independent Living Centers provide services to individuals with disabilities in the areas of advocacy, information and referral, independent living skills training and peer support. Contact an Independent Living Center at 1-800-265-9684

DakotaLink provides assistance to individuals of all ages to acquire and use the latest available assistive technology devices that best meet the need to maintain independence at home, work, in the classroom or in leisure activities. Contact DakotaLink at 1-800-645-0673.

South Dakota Benefits Specialist Network provides advice and support on Social Security work incentives, Medicaid, Food Stamps, TANF, Housing Assistance and other disability related benefits. Contact South Dakota Benefits Specialist Network at 1-800-224-5336.

The Law & Guardianship

It can be a particularly worrisome time if you question your child's ability to make important life decisions when he/she turns 18.

Guardianship may be an answer.

To learn about the pros, cons, and alternatives to guardianship or for more information, contact either:

South Dakota Services for the Deaf (SDSD), formerly known as the South Dakota School for the Deaf, is a state agency serving children from birth through high school who are deaf or hard of hearing. Renamed in early 2023, the shift reflects its evolution into a statewide outreach and audiology program rather than a residential school. SDSD offers no-cost services across South Dakota including consultation with educational teams, early hearing detection and intervention, mobile audiology clinics, communication support for families, and in-home or in-school training via outreach consultants stationed across multiple regions. Governed by the SD Board of Regents, SDSD partners with families, schools, and medical providers to ensure access, inclusion, and full participation of Deaf and hard-of hearing children throughout their educational journey.

So your child is deaf or hard of hearing and getting ready to transition into adulthood . . .

Tips for Parents

"A young person with a disability should be given opportunities to make choices and experience the consequences of those choices..."
"Learning to behave responsibly comes with support, practice, and mistakes..."
"Few things help children more than placing responsibility upon them and letting them know that you trust them..." (Authors Unknown)

While in high school, your child should...

- ✓ Apply for the Youth Leadership Forum (www.tsllp.org).
- ✓ Learn about their disability.
- ✓ Become involved in extra-curricular activities.
- ✓ Share strengths, learning styles, challenges and needed accommodations with the general education teachers.
- ✓ Consider applying for services through the Division of Rehabilitation Services (DRS).
- ✓ Actively participate in IEP meetings.
- ✓ Engage in volunteer work experiences.
- ✓ Explore career opportunities and develop career interests.
- ✓ Participate in job shadow opportunities.

If your child is going on to post-secondary schooling, they should also...

- ✓ Tour and visit with disability services office at colleges of interest.
- ✓ Attend a Catch the College Wave event.
- ✓ Address the possible need for accessing assistive technology (AT) devices.
- ✓ Challenge themselves with rigorous courses in the general education setting.
- ✓ Set high standards for themselves.
- ✓ Set up a regular study schedule.
- ✓ Share strengths, learning styles, challenges and needed accommodations with the general education teachers.
- ✓ Take ACT (American College Testing) or SAT (Standard Achievement Testing) exams early.

The Vocational Rehabilitation program receives 78.7% of its funding through a grant from the U.S. Department of Education. For Federal fiscal year 2019, the total amount of grant funds awarded were \$8,695,004. The remaining 21.3% of the costs (\$2,353,286) were primarily funded by state appropriations.

Going to college? Attend Catch the College

Catch The College Wave is an event designed specifically for high school students who have a disability and are considering post-secondary education (either a college, university, or technical college). Students will learn about preparing for college life, securing appropriate accommodations, and developing self-advocacy and communication skills. Highlights of the conference will be panel discussions with individuals who have a disability and have experienced a post-secondary setting, as well as disability coordinators discussing entrance and eligibility requirements. For more information on the date and location, contact the transition liaison in your area or go to the TSLP website at: www.tslp.org

SDMyLife is a FREE online program for South Dakota students to help them better understand themselves and how their interest, skills, and knowledge relate to real-world academic and career opportunities. Students use SDMyLife to research, select, and plan their careers. They can explore by career cluster, keyword, or school subject. Students can also research postsecondary education and training options, build a portfolio, study with Method Test Prep and find out about scholarships opportunities.

This interactive training module provides guidance for transition-aged students who are deaf or hard of hearing. It utilizes three questions to guide students through a self-realization process on their way to choosing a career. Video vignettes are signed in ASL with spoken English and captions. Modules also include self-assessments, while a series of interactive questions guide students as they identify their goals and develop strategies to achieve them.

SD DROP

SD Deaf Resource & Outreach Programs

a wide range of resources. These include peer support and mentoring, ASL and Deaf culture education, employment coaching, advocacy services, communication assistance, and technical aid such as amplified phones or captioning devices. SD DROP also offers interpreter mentoring, community trainings on Deaf awareness, and family ASL instruction for young children to foster early communication skills.

South Dakota Deaf Resource & Outreach Program (SDDROP) is a statewide nonprofit that has supported South Dakotans who are Deaf, hard of hearing, deaf-blind, or with speech disabilities for over 45 years. Through two core divisions-Community Support and Equipment Distribution-the organization delivers

The Getting a Job!

online training was developed and designed for students who are deaf or hard of hearing and the professionals who work with them. Focusing on the transition from school to work, the training offers a series of activities, supporting documents and topical videos designed to help the job seeker prepare for the world of work. All the videos in the modules are presented in ASL, and are also voiced in English and captioned. This eLearning course can be completed in multiple sessions, or all at once. Students can document their thoughts, lessons and important papers in their own Career Planning Log.

Described and Captioned Media Program

<https://dcmp.org/>

Described & Captioned Media Program (DCMP) is a federally funded initiative administered by the National Association of the Deaf under the U.S. Dept. of Education. It offers free membership and access to a national library of thousands of educational videos-with high-quality captions, audio description, and ASL translations-for students who are deaf, hard of hearing, blind, visually impaired, or deaf-blind (K-12). Users can stream content instantly or borrow DVDs with free return postage, organize student accounts and classes, and align videos to educational standards.

Division of Rehabilitation Services (DRS)

can offer services to students with disabilities. If your child hasn't applied for these services, please request the school to invite a Vocational Rehabilitation counselor to meet with you and/or your child or attend an IEP meeting. Some services DRS may provide (based on eligibility, financial need and individual needs) are:

- ✓ Guidance in transition planning;
- ✓ Financial assistance for college or training, when appropriate;
- ✓ Vocational counseling and guidance;
- ✓ Work experience through Project Skills and/or job placement, job coaching, and employment/follow along services for competitive employment in the community;
- ✓ Assessing the need for assistive technology equipment and services.

Find the DRS office nearest you:

<http://dhs.sd.gov/rehabservices/default.aspx>

phone/TTY (605) 367-5330.

HIGH SCHOOL WORK EXPERIENCE PROGRAMS

Project Skills is a paid work experience program for South Dakota high school students with disabilities. The program is a cooperative arrangement between the Division of Rehabilitation Services and local school districts. **Project Skills** provides students the opportunity to learn different skills in a variety of job placements, with the assistance of a job coach. A new program was recently developed so VR can provide employability skills for 504 students through a program called **Employment Skills (ESP)** which is set up the same as Project Skills. However, it does NOT require the school to provide the match but it does still provide the students the opportunity to gain valuable employment skills with support needed to be successfully employed down the road.

For further information regarding this program, contact your local Division of Rehabilitation Services office, high school special education teacher or Transition Services Liaison Project.
